

SCHEDULE 3.

TABLE 1.

SAFETY STANDARDS FOR SMALL CRAFTS.

TYPE OF CRAFT.	SAFETY STANDARDS.
FOR ALL CRAFT REQUIRED TO BE REGISTERED UNDER THIS ACT.	For all small craft required to be registered under this Act the craft must have the following safety equipment, in good working order, on the craft whenever it is operated or goes to sea: (a) Lifejackets that comply with the <i>ISO 12402 lifejacket</i> standard for all persons on the craft including appropriately sized jackets for children - (b) a pair of oars or paddles (c) a functioning waterproof torch (d) a mirror or similar device for signalling (e) an anchor or similar, with length (not less than 20 meters) of rope attached (f) a sea anchor or similar device, (includes a tarpaulin) with length of rope attached to allow for proper deployment (g) a bucket or bailer (h) a first aid kit (i) For enclosed hull craft, a fire extinguisher (j) Where fitted, a properly functioning and maintained engine (k) Tools and spare parts for the craft's engine which must include a sparkplug and a tool for removing a sparkplug (if craft is fitted with an engine) (l) Sail or tarpaulin (preferably bright orange or yellow in colour) as an alternative means of propulsion, shelter, water collection, drift control and extra visibility; and (m) Sufficient fuel for the proposed journey as specified in table 1.
FOR CRAFT REQUIRED TO BE REGISTERED UNDER THIS ACT TRAVELING OUT OF SIGHT OF LAND.	(1) A reliable compass or <i>a mobile phone on which an emergency call is capable of being made.</i> (2) Emergency food and water, sufficient for all persons on the craft for 24 hours. (3) Reserve supply of fuel of 25 percent of minimum fuel requirements as specified in table 1.
FOR CRAFT REQUIRED TO BE REGISTERED UNDER THIS ACT TRAVELING AT NIGHT.	(1) A bright light or lights visible from all directions. (2) Any other lighting including navigation lights generally or for use in particular locations as determined by the Provincial Small Craft Registrar and approved by the NMSA.
FOR COMMERCIAL SMALL CRAFT REQUIRED TO LICENCED UNDER THIS ACT.	In addition to the safety equipment for all craft (above), for commercial small craft required to be licensed under this Act, the craft must have the following safety equipment in good working order, on the craft whenever it is operated or goes to sea: (1) A reliable compass or access to <i>Global Positioning System (GPS) by way of a specific GPS Device or a mobile phone equipped with GPS.</i> (2) Emergency food and water, sufficient for all persons on the craft for 24 hours. (3) Whistle or horn.

EXEMPTIONS FROM SAFETY STANDARD REQUIREMENTS	The NMSA may by written notice, exempt a class or type of small craft or individual small craft from any or all provisions and requirements of this Schedule.
