

NCD SMALL CRAFT REGISTRATION BOARD

Level 1, City Hall Annex Building

Waigani

National Capital District

P O Box 1392

Port Moresby

ANNUAL REPORT

2022

NCD Small Craft Registration Board has had a rough start to its establishments administratively and operationally due to covid pandemic since 2020 and 2021 saw POM North West by Elections and the 2022 National Elections has really disturbed and halted much of its program rollouts. The following report will talk about our progress since commencement of Small Craft Act Implementation Programs (SCAIP) phase 1 Awareness/Education in September this year. Detailed report on Awareness Programs engaged in all Shoreline Motu Koita villages so far followed by our Financial Report for 2022 and our WORK PLAN for 2023.

ANNUAL REPORT

To our Provincial Executive Council (NCDC) & NMSA

STRATEGIC APPROACH

The future looks good, despite our late commencements and rollout of Small Craft Act Implementation Programs in the last two years. We remain positive with our Provincial Executive Council (NCDC) as they continue their support and allocation of funds as we embark on modernizing the NCD Small Registration Board systems by deploying and installing proper Systems, Software's, Applications for our registrations, tracking and monitoring using modern devices and technology. Doing away with manual entries.

Our goal for the future is for NCD Small Craft Registration Board to have its own SEARCH AND RESCUE Boat and a Mariner set up with an office space to operate and manage all small crafts/vessels/boats.

Our vision is to be the leading Maritime province in Small Crafts Administration and Regulation.

FINANCIAL STATUS

As mentioned earlier, we remain positive with our Provincial Executive Council (NCDC) as they continue their support and allocation of funds to ensure we are financially sound in our establishments' phases.

OPERATING ANALYSIS

The most important and crucial stage of the Small Craft Act Implementation is to successfully rollout Awareness/Education programs. Then followed by Registration and ongoing monitoring and evaluation of small crafts operations.

LOOKING AHEAD

With the development of the new Registration Application, which we're are about to purchase and own, we are set to rollout the new phase of registration systems. Never done and achieved in other Small Craft Registration provinces. We aim to phase out manual registration and paper trails. The future looks bright and we envision to be the leading Maritime province in Small Crafts Regulation, administration and Management.

Hitolo Garia

Registrar

December 8, 2022

PROGRESS REPORT

Pursuant to section 7 (e), (f) and (g) of the Small Craft Act 2011, I hereby submit our Q1 and Q2 consolidated report for 2022. The purpose of this brief is to provide summary report on the performance so far from the management and administrative aspects since its establishment. I will also highlight few areas of concern and recommendations which will require the boards consideration and approval. Some of the points are for your, noting, reference and information.

1. WHAT WE ACHIEVED SO FAR

1.1 Inspectors Training

- a) We managed to put together 21 Inspector's in August last year (2021) as part of the first phase of setting up NCD Small Craft Registration Board. All Inspectors underwent a 3-day Training workshop at Gateway Hotel facilitated by NMSA in last November and were certified after the training.
- b) It was a hurdle resourcefully and financially putting together Inspectors and organizing transport and logistics support arrangements especially during the Training period at Gateway Hotel in November last.
- c) A big thank you to our Board Chairman (Ryan) for stepping in to assist financially. Without his assistance I wouldn't have been able to get the job done. While I am still on this "Inspectors" subject, I must inform you all that, half of our Inspectors have left us for other offers or job opportunities elsewhere.
- d) It is however, at a reasonable number to commence operation's considering the limited funding issue and proper determination processes.

1.2 Ela Motors Sponsorship/Donation

- a) The vehicle donated is a used Toyota Hilux within the Ela Motors Security Fleet. It had already locked close to an estimated 265,000km mileage upon receipt. Considerably a good vehicle to have and I acknowledged the sponsorship or

donation from Ela Motors. And thank you chairman Ryan for establishing the negotiations and partnership.

1.3 Bank Account

- a) It took us almost 7 months to have the account opened. Unfortunately, it had to go through Department of Finance approval process and system within Cash Management Division then through to the Secretary's Office for final approval and confirmations letter from the Secretary. You can imagine the trail and red tapes it had to endure.
- b) We finally, got it opened in June and we now have our own bank account with Bank South Pacific Paramount Branch with access to *Online Internet Banking* and *Premium Banking Services*.

2. WORK-IN-PROGRESS

2.1 Funding

- a) Funding remains our biggest hurdle which stagnates our whole operation until we receive our full allocated funding of K200,000.00 from NCD only then we can fully operate the registry. However, NCD have allocated 100k this month hence the need for the board to convene a special or first meeting of the year to approve on an operational budget to commence operations. However, we are yet to submit our proposals to Moresby North West and Moresby South Office.
- b) There are dialogues already established by Ryan with the incumbent members of both electorates so once they are settled in their office, we will make appointments in the coming weeks to submit our submissions. Both proposals are ready for perusal and approval by Chairman for submission.

2.3 SCAIP

- a) The Small Craft Act Implementation Programs (SCAIP) phase one Awareness/Education Program requires proper planning, coordination and engagement. **AWARNESS/EDUCATION** program Plan with a Scope of Work has been prepared and will be reported separately for perusal and endorsement.
- b) Phase two Inspection and Registration Program requires proper planning, coordination and engagement. **Inspection/Registration** program Plan with a Scope of Work has been prepared and will be reported separately for perusal and endorsement.

2.4 Registration App

- a) A Registration Application has been developed by Richard MacArthur from RMC PNG Ltd and is ready to be launched. However, the developers require a part payment for them to release a demo version for trial basis.
- b) If we make full purchase, we can fully own its user licenses and then use it to loan it out to other interested maritime provinces or parties at a reasonable monthly subscription rate.
- c) The App can be interfaced with NMSA and Ela Motors systems for Safety, Monitoring and Evaluation purposes.
- d) It will also generate additional income for us with monthly subscriptions mentioned above.

2.5 Staff Structure

- a) The recruiting structure needs to be arranged properly in terms of determination and facilitation of staff (Inspectors/Admin staff's) terms and conditions or remunerations.
- b) The Small Craft Act does not mention for Registrar and Inspectors or admin staffs other than the board members in section 4 (3) of the small craft act.

- c) We have options either we accommodate them in our Operational budget or squeeze them in the NCDC casual employment system. I have elaborated further on the issue below under facts and consideration.

3. CORRESPONDENCES RESPONDED AND PENDING RESPONSE/APPROVAL

3.1 Office Space

- a) In December last year, Mr. Augustine Ravi who is the Financial Advisor to the NCDC, verbally allocated the office space currently vacated by NCDPHA at level 1 City Hall Annex building. The office is suitable for our small set up.
- b) For formality purposes, I have written to Mr. Ravu Frank our City Manager and board member for approval. We are yet to know the status; however, I understand he has a lot on his plate now and would appreciate if a response could be made before end of this month.
- c) My job requires proper planning, coordination and implementation; hence I am begging this board to arrange a proper set up so I can function as a Small Craft Registry Office with 2 to 3 support staffs.

3.2 Steamships Trading Company

- a) We have written to Mr. Rupert Bray the Managing Director of Steamships early this year in February. He has responded well hence; a dialogue is established now between us and their General Manager Corporate Services Mr. Rupa Vele whom we've met couple of weeks ago to discuss possible sponsorship or donation ideas.
- b) The meeting with Steamships was very fruitful and they are very keen to assist us but might not be on monetary terms. The positive take back is our presence and to create partnerships within the private or corporate sector.

FACTS/CONSIDERATION

1. Salary Determinations for Small Craft Staff

As you're aware the *Small Craft Act* does not state with certainty from which source shall funding for the wages or of the staffs of the NCD SCRB shall be sought from. Section 4(3) only provides for the terms and conditions of members of Registration Boards are to be determined by the relevant Provincial Executive Council (in this case, NCDC), however, there are no such similar provisions for the small craft inspectors nor other staffs employed by the NCD SCRB.

Thus, in reading the *Small Craft Act* as a whole it is clear that the NCD SCRB will be subjected to NCDC as Section 3(1) gives mandate to NCDC to establish a small craft board for NCD and in that regard I submit that NCDC make provisions to cater for salary determinations of the staffs of NCD SCRB.

2. NAMING CONVENTION (NCMDK Small Craft Registration Board)

Secondly, it is a legal registry board set up by the municipal government of National Capital District (NCD) pursuant to the *Small Craft Act* 2011 (SCA) for purposes of administering and regulating the functions under the *Small Craft Act* 2011. NCD is a maritime province, and by law it is imperative that the naming be aligned with its provincial abbreviations. For uniformity sakes, the name to change to rather NCD Small Craft Registration Board.

RECOMMENDATION

Current or main pressing issues from my end operationally and administratively is **Staffing** and **Salary determination or remuneration facilitations**. *Small Craft Act* concerns and is declared to be a matter of national interest and dealing with a matter of national importance. Any functions perform pursuant to the Act therefore binds the State pursuant to Section 1(4). Just like any Government institution or organization, the NCD SCRB is a creature of an Act of Parliament and is a government authority by law. As such, I strongly recommend the Board to seriously look into the issue and National Maritime Safety Authority to note the purpose and importance of the act and amend Small Craft Act 2011 law to allow provisions for Remuneration and Determination and facilitations for each maritime province to align within their long-term and short-term development goals and budgets of the Small Craft Registration Boards.

ANNUAL REPORT

SCAIP PHASE 1 ROLLOUTS

AWARENESS/EDUCATION PROGRAMS

LAURABADA – HANUABADA VILLAGE

We commenced our 1st Awareness Program with Hanuabada Village mainly Lahara facilitated by LTMC at their Church Hall on the 07th November 2022. However, with only few participants who attended the program, we had to take other alternative approach. By 1300hrs, instead of waiting for another hour or so, we had to take the awareness to each house, clan by clan.

LAHARA/LAURABADA/GABI – ELEVALA VILLAGE

On the 09th November 2022, we gathered at Elevala Village, United Church Ruatoka Hall for our 2nd Awareness Program. Due to most of the villagers committed to other activities/obligations (work, market, fishing), the outturn was not up to our expectations. We had about 15-20 persons who attended and also valid questions (registration fees/overload/rescues etc..) were asked. Two (02) of the NMSA officers were present to answer their questions.

ANNUAL REPORT

FISHERMAN ISLAND

Our 3rd Awareness Program was at the Fisherman Island (MOUKELE) on the 12th November 2022. We hired 2 x dinghies from Elevala Village for the trip. The program was conducted in the middle of the village with quite a number of interested villagers who attended. Number of Brochures, Posters, Pamphlets were distributed by the Inspectors. Remaining handouts were kept by the respective inspector from the Island on request, which was to be given to the people who were out on that day.

TATANA/ARAIIRA VILLAGE

The 04th Awareness Program was conducted at Tatana Arena on the 18th November 2022. Again, a very good number of people attended the program with some eye-opening views. Some questions were asked on matters NOT relating to the awareness in which some of the observers were not happy. However, the overall meeting was a huge success. Many have requested for the program to be conducted again prior actual operations.

ANNUAL REPORT

VABUKORI VILLAGE

The 05th Awareness Program was on the 21st November 2022. Despite of the limited space in the hall, a good number of people attended. Questions were raised by few observers regarding registration dates, fees etc. Had a good discussion with the villagers/dinghy owners/observers after the awareness.

PARI VILLAGE (Taurama/Taoata).

The 6th Awareness was attended by number of dinghy owners on the 24th November 2022. Posters/Brochures/Pamphlets were handed out. Since the program was the first of its kind, many questions were raised on rescue assistance, passenger/cargo overload, tracking systems, registration fees/dates, permits, licensing etc. Concerned villagers requested for additional handouts to be kept and given to dinghy operators who were out on that day.

Villages Yet to be visited.

HANUABADA LAHARA SECTION

TAURAMA (for clarity's sake, this Taurama refers to the shorelines of Tutu beach and Tuna Bay areas)

ANNUAL REPORT

RESPONDS/FEEDBACK.

Laurabada-Hanuabada Village

- a) The outcome of the program with our Door-to-Door approach was very good with positive responds from the clan members. There were questions asked relating to Registrations, Licensing, Insurance etc. Requests for program to be conducted again in 2023 prior to actual operations.

Laurabada/Lahara/Gabi – Elevala Village

- b) The outcome of that program was good with positive remarks and further requests were given, if possible, for the same awareness to be conducted in January 2023 especially in the village open arena.

Fisherman Island

- c) Very good attendance by the villagers with positive remarks. Few questions asked regarding Insurance, Licensing, Permits, Deadline of registration dates etc. These issues were left for NMSA to properly regulate prior disseminating to public.

Tatana/Araira Village

- d) Good outcome by villagers from Tatana and Araira. Questions also asked regarding Registrations/Licensing/Insurance etc. One question was also given relating to dinghies without motor, whether acceptable by Authorities.

Vabukori Village

- e) Positive responds from the dinghy owners/observers regarding the awareness. Quite a few requested for the program to be conducted again next year 2023 prior to its actual commencement.

Pari Village (Taurama / Taoata)

- f) Like the Awareness Programs on previous villagers, requests were made for same to be conducted especially in the village arena for the benefit of those who were not in attendance due to other family commitments (trolling/diving/marketing etc..).

ANNUAL REPORT

RECOMMENDATION

With the overwhelming responds from all the villagers we attended to conduct the awareness program, we were urged to re-run the Awareness/Education Program in the upcoming months prior to the actual commencement of the Small Craft Registration and Operations.

Also, with the 1st 100K allocation of funds received from NCD, we were able to roll out the first phase of setting up NCD Small Craft Registration Board, All Inspectors undergoing a 3-day Training workshop at Gateway Hotel and the Awareness/Education program implementation on all the villages. We were able to gather few of the Inspectors available to assist with the Awareness.

The 2nd 100K allocation of funds will enable us to roll out the second phase, with the commencement and Operations of the Small Craft Registry office.

We propose for January 2023 for the Awareness/Education Program to continue for the 1st quarter once funds are secured and followed by Registration in 2nd, 3rd and 4th quarters.
