ADMINISTRATION OFFICE | LEVEL 1 | CITY HALL
ANNEX BUILDING | WAIGANI, NATIONAL CAPITAL
DISTRICT.
P O BOX 1392, PORT MORESBY, NATIONAL CAPITAL DISTRICT

21 August 2023

Honorable Lohia Boe Samuel MP

Moresby Northwest Electorate

Level 2, City Hall Annex

Waigani

National Capital District

Port Moresby

Dear Honorable Lohia Boe Samuel,

Subject: Request for Additional Funding - Small Craft Act Implementation Programs/Projects by NCD Small Craft Registration Board

I hope this letter finds you well!

I am writing to request your immediate support and assistance in securing additional funding to boost our operations. Despite receiving an initial funding of K200,000 from the NCDC, it has become apparent that this amount is insufficient to sustain us for the remainder of the 2023 year. We are, therefore, seeking an additional allocation of K200,000 to address pressing needs.

Overview:

The NCD Small Craft Registration Board is entrusted with enforcing the Small Craft Act, a pivotal legislation that safeguards the safety and regulation of small crafts operations within our shoreline communities in Motu Koita villages, in the National Capital District (NCD). Thus, it is crucial to strengthen our capacity to fulfill this critical mission.

Objectives:

The primary objectives are as follows:

1. **Additional Media Campaign:** To continue and expand media campaigns through radio, newspapers, and other relevant platforms, aimed at boosting safety awareness among small craft owners and users, particularly during adverse weather conditions and strong winds currently experienced in our coastal areas and the city as a whole.

2. **Inspectors' Wages:** To ensure that the inspectors can operate on a daily basis, conduct regular inspections, and enforce safety regulations effectively, especially during challenging weather conditions.
3. **Purchase of a Boat:** To acquire a Banana Boat/Dinghy, that will enable us to conduct inspections, investigations, and enforcement activities efficiently. Most importantly to have a presence out there of our existence.
4. **Container Office Setup:** To establish a container office as a central hub for our inspections and registration operations/functions.

Budget Request:

To address these immediate and ongoing needs, we kindly request an additional funding allocation of K200,000. This budget will be allocated as follows:

1. **Additional Media Campaign:** K50,000
 - This allocation will fund an extended media campaign, including radio broadcasts, newspaper ads, and other media initiatives aimed at promoting safety awareness among small craft owners and users, particularly during challenging weather conditions and strong winds experienced currently.
2. **Inspectors' Wages:** K50,000
 - This allocation will cover the wages of at least 10 inspectors, ensuring they will carry out daily duties effectively.
3. **Purchase of a Boat:** K70,000
 - This allocation is essential and we really need a boat to boost our operations. We really need to at least procure a Banana boat/dinghy from Ela Motors for our operations.
4. **Container Office Setup:** K30,000
 - This allocation will cover the cost of purchasing and modifying a container to serve as an office space, including essential furnishings and office equipment.

Benefits/Outcomes:

The successful implementation of this programs and the receipt of additional funding will yield numerous benefits/outcomes for our coastal communities in the National Capital District, and the enforcement of the Small Craft Act:

1. **Enhanced Safety Awareness:** The extended media campaign will significantly boost public awareness of safety regulations, reducing the likelihood of accidents and

encouraging compliance among small craft owners and users, particularly during adverse weather conditions.

2. **Effective Regulation:** It will enable the Board to carry out its regulatory and enforcement duties more efficiently, ensuring strict compliance with the Small Craft Act, thus reducing accidents and enhancing safety.
3. **Inspectors' Capacity:** Adequate funding for inspectors' wages will ensure that they can operate on a daily basis, conduct regular inspections, and enforce safety regulations effectively, especially during challenging weather conditions.
4. **Improved Infrastructure:** The container office will serve as a central hub for the board's operations, enabling smooth and efficient Inspections and Registrations functions for small boats/crafts.

Conclusion:

My good Honourable Member, the Small Craft Registration Board's work is of utmost importance, especially during adverse weather conditions like the strong winds currently affecting our area. The initial funding from the NCDC was appreciated, but the needs of the NCD Small Craft Registration Board are ongoing and pressing. We kindly request your support in securing the additional funding of K200,000 to sustain and further develop this vital program for the remainder of 2023.

I am available at your earliest convenience to discuss this proposal further and provide any additional information you may require.

We appreciate your continued support and dedication to the betterment of our electoral district and the safety of our coastal constituents.

Thank you for your attention to this matter and I anticipate your favorable response.

Yours Sincerely,

Hitolo Garia
