

ADDENDUM TO REGISTRAR'S REPORT

Board Meeting No. 1 of 2025 – 28 October 2025

NCD SMALL CRAFT REGISTRATION BOARD

From: Hitolo Garia, Registrar

To: The Chairman and Members of the Board

Date: 27 October 2025

Subject: Registrar's Transition Notice – For Board Information and Deliberation

Purpose

This Addendum is submitted to inform the Board of a forthcoming transition relating to the Registrar's employment status with the Motu Koita Assembly (MKA) and to outline the intended approach to ensure continuity of Registry operations.

Background

The Registrar has been serving the NCD Small Craft Registration Board since June 2021, having been seconded from the MKA Finance Division (Coordinator – Revenue & Inspection) under the direction of the former MKA Chairman, Hon. Dadi Toka Jnr.

During this period, the Registrar has operated under the MKA Structure. The new MKA organizational restructure, presently before the Department of Personnel Management (DPM) and the Salaries and Conditions Monitoring Committee (SCMC), is expected to phase out existing payroll positions, including that of the Registrar.

Notice of Transition

In light of the above, I wish to formally advise the Board of my intention to resign from the MKA effective 31 October 2025.

This is a personal and professional decision taken to step away from the Assembly's political administration space.

I remain fully committed to ensuring continuity of the NCD Small Craft Registry's operations and I am willing to continue serving as Registrar under the direct authority of the Board should the Board wish to engage my services through its own administrative or contractual framework pursuant to the Small Craft Act 2011.

Recommendation to the Board

It is respectfully recommended that the Board:

1. Note the Registrar's intention to resign from the MKA, effective 31 October 2025; and
2. Make interim administrative arrangements to ensure continuity of Registry functions.

Submitted for the Board's information and consideration.

Kind regards,

Hitolo Garia
